**RESPONSE TO RESTRICTION/ELECTION REQUIREMENT**

This is in Response to the Office Action mailed December 18, 2001. As best understood, the Examiner has identified what are believed to be two patentably distinct species of the claimed invention. The first species is said to be represented by claim 16, while the second by claim 23. The Examiner did not set forth specific claims or groups corresponding to these species. Applicant hereby provisionally elects to proceed on the basis of claims 16-22 and 28 through 35. While the Office Action acknowledged that all of claims 16-35 are pending in the present patent application, the Examiner did not address claims 28-35 with any specificity, or any of the dependent claims. However, as claim 28 also recites a "general purpose display station" as the Examiner observed as recited in claim 16, maintaining claims 28-35 in the application for Examination appears to be in order.

Should the Examiner nevertheless wish to discuss the present election, or if the Examiner believes that election is not completely responsive to the Office Action, he is

kindly requested to contact the undersigned at 281-970-4545. The Examiner is also kindly requested to issue a notice indicating the allowability of the elected claims at his earliest convenience.

If the Examiner believes that a telephonic interview will help speed this application toward issuance, the Examiner is invited to contact the undersigned at the telephone number listed below.

Date: 1/18/2002

Respectfully submitted,

29  
Patrick S. Yoder
